

KUNAL BHADANA

Full Stack Developer | MERN Stack | React.js | Next.js | Node.js | Python | GoLang

Faridabad, Haryana, India • Phone: +91 8287805020 • kunalbhadana11@gmail.com • linkedin.com/in/kunal5020 • kunalbhadana.me

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building production-ready web applications, SaaS platforms, custom dashboards, and AI-powered tools from idea to launch. Experienced in React.js, Next.js, Node.js, Express.js, NestJS, MongoDB, Firebase, REST APIs, Python, and GoLang, with strong capabilities across frontend engineering, backend systems, integrations, and scalable product delivery. Experienced in taking end-to-end ownership of products, including architecture planning, frontend and backend development, API integrations, deployment, optimization, and ongoing feature development in startup and business environments.

CORE SKILLS

Frontend:	React.js, Next.js, JavaScript, Responsive UI Development, UX-Focused Interfaces
Backend:	Node.js, Express.js, NestJS, REST API Development, Python, GoLang, Authentication Systems, Server-Side Logic
Databases:	MongoDB, Firebase, PostgreSQL
Integrations:	Third-Party APIs, Payment Integrations, AI APIs, Workflow Automation
Platforms:	MERN Stack, SaaS Products, Dashboards, Admin Panels, Web Applications
Additional:	AWS, Deployment, Performance Optimization, Project Management, Scalable System Planning

PROFESSIONAL EXPERIENCE

FULL STACK ENGINEER — AI Agent Studio (WebSocial Studio) January 2026 – Present | India

- Building full-stack web applications, AI-powered tools, and workflow automation products for startups and growing businesses.
- Leading end-to-end product development using React.js, Next.js, Node.js, Express.js, MongoDB, Firebase, and modern backend workflows.
- Handling architecture planning, frontend and backend development, API integrations, deployment, and scaling.
- Developing SaaS platforms, dashboards, AI chatbots, workflow automation systems, and custom business applications.

MERN STACK DEVELOPER — DGTLmart Technologies Private Limited October 2024 – November 2025 | Delhi/NCR

- Managed end-to-end web application and website development from initial planning through deployment.
- Designed, developed, and maintained scalable applications while implementing new features according to business requirements.
- Worked across frontend and backend development, API integrations, testing, debugging, and deployment.
- Handled performance optimization and reliability improvements to ensure maintainable and production-ready applications.

WEB DEVELOPER — DGTLmart Technologies Private Limited October 2024 – March 2025 | Faridabad, Haryana

- Supported the development and maintenance of web applications and business websites.
- Worked on frontend improvements, backend connectivity, APIs, and deployment-ready feature development.
- Focused on application usability, performance, and reliability.

MERN STACK DEVELOPER — Unified Mentor June 2024 – August 2024 | India

- Built and supported MERN stack applications with frontend-backend integration and database connectivity.
- Worked on React.js, Node.js, Express.js, MongoDB, APIs, debugging, and feature development.
- Gained hands-on experience with professional full-stack development workflows and rapid feature delivery.

SELECTED PROJECT & DEVELOPMENT HIGHLIGHTS

CREATORSXCHANGE React.js • Node.js • Express.js • MongoDB • Real-Time Chat • Payment Gateways

- Led development of CreatorsXchange, a creator marketplace connecting brands with 500+ creators.
- Developed advanced creator search/filtering, real-time chat, analytics dashboards, and admin management systems.
- Implemented authentication, user management, payment integrations, and third-party APIs across full product lifecycle.

AI & AUTOMATION DEVELOPMENT Next.js • Python • Gemini • ChatGPT • Claude API • Model Context Protocol (MCP)

- Built AI-powered applications, chatbots, and business automation solutions using Claude, ChatGPT, and Gemini APIs.
- Developed workflow automation systems, AI-assisted SaaS applications, and Model Context Protocol (MCP) tool integrations.

EDUCATION & CERTIFICATIONS

BSc (Hons) Computer Science

September 2021 – July 2024

Maharshi Dayanand University (MDU), Rohtak | Homerton Grammar School

Certifications & Professional Development:

- Artificial Intelligence: Claude 101, AI Fluency Foundations, Claude Code in Action, Building with Claude API, Intro to Model Context Protocol (MCP)
- Cloud & GenAI: Intro to Generative AI, Prompt Design in Vertex AI, AWS Lambda Foundations, Amazon Bedrock, Azure Functions
- Engineering Tools: Intro to GitHub, GitHub Actions, GitHub Copilot. (Pursuing advanced AI Agent & Cloud credentials)

ADDITIONAL INFORMATION

Open to Full Stack Developer, MERN Stack Developer, React.js Developer, and Node.js Developer opportunities (Remote / Global). Portfolio: kunalbhadana.me | LinkedIn: linkedin.com/in/kunal5020 | Email: kunalbhadana11@gmail.com / kunalbhadana15@gmail.com | Phone: +91 8287805020
